E-mail: bpsr@scr.state.oh.us • Website: <http://www.scr.ohio.gov/>

The Honorable Bob Taft, Governor of Ohio;

Members of the General Assembly;

Administrators of Registered Schools:

This report is filed in compliance with Ohio Revised Code Sections 149.01 and 3332.031(N). We attest that the information contained herein is an accurate reflection of the activities of this State Board of Career Colleges and Schools (Formerly known as the State Board of Proprietary School Registration), as well as the career colleges and schools registered by the Board, during fiscal year 2003. This is the 29th Annual Report produced by this Board.

Ohio has one of the largest career education systems in the country. The State Board of Career Colleges and Schools is responsible for monitoring and regulating approximately 265 for-profit and non-profit private career colleges and schools in the State of Ohio. During fiscal year 2003, these private career schools educated over 60,000 students in 1,400 programs approved by this Board.

The State Board of Career Colleges and Schools continues to work to assure that career education succeeds for the citizens of Ohio. It is our hope that this Annual Report will provide insight for the citizens of Ohio about the significant, positive contributions of private career colleges and schools in Ohio. On behalf of the State Board Career Colleges and Schools, we hope that you will find our Annual Report informative and enlightening.

Respectfully submitted,

Linda Hanaway, Chairperson

John Ware, Executive Director

I. Introduction

The State Board Career Colleges and Schools (“Board”) was created by the Ohio Legislature in 1970 under the name State Board of School and College Registration. In 1989, significant legislative changes (including a name change to State Board of Proprietary School Registration) gave the Board more regulatory authority over career colleges and schools (private, for-profit, post-secondary) in Ohio. It also changed the composition of the Board to include more representatives from the public and it increased the number and responsibilities of its field staff.

In recent years, increased oversight by the Board, as well as by national accrediting agencies and the United States Department of Education, has resulted in many changes to the career school industry. These changes can be seen most dramatically in the reduction of schools registered with the Board since 1991. However, the number of registered schools has increased over the last few years. Those numbers are reflected in Chart 1 below.

Chart 1

II. General Information about the State Board of Career Colleges and Schools

A. *Board Responsibilities*

The Board's general responsibilities include:

1. Maintaining the viability of registered schools through oversight of their programs and curricula along with their business practices, including advertising and recruiting.
2. Monitoring schools that provide educational and related services to a population of students who might not be served in the non-profit or public sector.
3. Protecting reputable schools from unfair competitive practices of unscrupulous school operators and their representatives.
4. Protecting the investment of students who have paid for education and training services.
5. Protecting the citizens of Ohio from fraudulent and unscrupulous school operators and their representatives.

In carrying out these responsibilities, the Board's goals are to offer help, encouragement, and guidance to registered schools so that those Ohioans who choose them will be assured of quality education and training. In that process, the Board strives to uniformly deliver a consistent, fair, and equitable administration of its responsibilities in order to encourage maximum performance, which leads to gainful employment or career enhancement for each graduate of an Ohio career school.

This Annual Report is testimony to the positive impact of Ohio's career colleges and schools. The Board is proud of its role in the regulation of this important post-secondary sector. It feels strongly that, with their continued cooperation, Ohioans can remain assured that their investment in a career college or school is one on which they can depend.

B. The Board Structure

The organizational structure and composition of the Board is established by **Section 3332.03** of the Ohio Revised Code, and the membership consists of the following:

1. The State Superintendent of Public Instruction or an Assistant Superintendent designated by the Superintendent;
 - During Fiscal Year (“FY”) 2003, Dr. Steven Puckett, Assistant Superintendent for the Ohio Department of Education, served in this capacity.
2. The Chancellor of the Ohio Board of Regents or a Vice Chancellor designated by the Chancellor;
 - During FY 2003, Dr. Garrison Walters, Vice Chancellor of the Ohio Board of Regents, served in this capacity.
3. Five members appointed by the Governor, with the advice and consent of the Senate, including:
 - a. Three of the members must be from vocational and technical schools:
 - During FY 2003, Mr. Charles Kramer of Educational Management Services, Inc, and Mr. Neil Collins of Hondros College, served as appointed school representatives.
 - The third position created by Senate Bill 266, which was effective in April, 2003, was not filled by the Governor until FY 2004.
 - b. Two public members without affiliation to regulated schools;
 - During FY 2003 Ms. Linda Hanaway from Beavercreek and Dr. Leonard Kingsley from Toledo, served as the Board's public members.
 - c. One non-voting member who has graduated from a regulated school with a Baccalaureate or an Associate Degree, during the past five years.
 - During FY 2003, this position was vacant.

C. Board Statutory Responsibilities

Ohio Revised Code Sections 3332.01 through 3332.15 require that the Board:

1. Establish minimum standards for the regulation and operation of registered schools, including but not necessarily limited to standards to insure school financial stability.
2. Issue certificates of registration and program authorization to registered schools.
3. Suspend or revoke the certificates of registration or program authorization under certain conditions.
4. Establish minimum standards for certificate, diploma, and degree programs offered by registered schools.
5. Grant permits to agents and/or suspend or revoke an agent's permit.
6. Establish minimum standards for agents, including a code of ethics.
7. Monitor recruitment and admission practices of schools to ensure compliance with the law and the rules of the Board.
8. Adopt rules requiring all schools to provide applicant students, prior to signing an enrollment agreement, written information concerning obligations on the part of any student obtaining a grant or loan, the school's placement rates for each of the preceding three years, and other information the Board deems pertinent.
9. Adopt a rule requiring all schools to include, in the enrollment agreement, notice that the student may direct any problems he/she is having with the school, or complaints he/she has about the school, to the Board.
10. Adopt a rule requiring a uniform tuition refund policy.
11. Adopt a rule establishing minimum standards for all faculty and instructional staff in all instructional programs at a school.
12. Report annually to the Governor and General Assembly on the activities of the Board and career colleges and schools and make legislative recommendations when necessary to enable the Board to better serve the student population and the schools registered with the Board.

III. Overview of Significant Board Activities for Fiscal Year 2003

During Fiscal Year 2003, the State Board of Career Colleges and Schools continued to move forward with many of the internal changes that were started in Fiscal Year 1997. Some of the significant changes and other activities that took place during FY 2003 included:

Statutory Changes

Senate Bill 266 was passed by the legislature and signed by the Governor in January 2003. The Bill became effective in April 2003 and the Board began implementation of the changes during the last quarter of FY 2003. Some of the significant changes in the Bill included:

- Changed the Board's name;
- Added an additional school representative to the Board and made the student representative a non-voting member of the Board;
- Changed the source of the Board's appropriation and fee revenue from the General Revenue Fund (GRF) to the Occupational Licensing Fund (4K9);
- Amended school surety bond provisions and gave the Board the authority to set the bonding requirements by rule;
- Eliminated the need for agent bonds;
- Clarified statutory provisions of the student tuition recovery fund.

School Oversight

The Board and its staff continued to carry out its statutory oversight duties by taking the following actions during FY 2003:

- Issued 595 Agent Permits
- Approved 27 New Schools
- Approved 355 New Program, Degrees and Majors
- Renewed 115 Schools
- Renewed 511 Programs and Degrees
- Approved 30 Learning Centers
- Approved 69 Program Name Changes and Revisions
- Approved 38 New School Directors

Many of these Board actions required on-site visits by consultants and staff and, as a result, the Board's staff and consultants made over 225 site visits to various schools throughout the state during FY 2003.

Strategic Planning

The Board approved a five year strategic plan at its July 18, 2001 Board Meeting. As part of the strategic planning initiative, the Board developed a plan of work for FY 2003 that included plans to address the items discussed below.

1. Administrative Rule Changes

The Board implemented several rule changes during FY 2003 including the changes that were made to rule 3332-1-10 governing the disbursement of private financial aid money (effective 10/1/02) as well as the changes made to rules 3332-1-22 and 3332-1-221 governing fees (effective 7/3/03).

2. Implementation of Guidelines for Completing Consultant Evaluations

The implementation of a "30-day agenda deadline" that requires schools to submit board agenda items 30 days before each meeting has solved many of the problems that have caused pending items on Board agendas. The two areas that still result in pending items are fees and facilities compliance issues.

3. Closed School Records

During FY 2003, the Board's staff finalized the removal of approximately 25 file cabinets of records obtained from Bliss College and completed the purging and removal of another 30 file cabinets of records obtained after the closure of West Side Institute of Technology. All of the records are now being stored off-site at Fireproof Records Center.

4. Technology Initiatives

This use of e-mail and the web site continued to expand during FY 2003. All of the Board's forms that are available via the web site were updated and reorganized. In addition, the Board's staff eliminated the mailing and distribution of many items including Board meeting agendas, new school packets and the Board's annual report. All of these items are now available electronically via the Board's web site.

IV. Data Analysis for Fiscal Year 2003

Contained below is a report and analysis of the data accumulated by the Board for Fiscal Year 2003. This information is presented in an attempt to accurately track the activities of the Board as well as the activities of the schools registered by the Board. The cumulative school data has been compiled from an analysis of the annual reports submitted by each school registered by the Board.

A. *Registered Schools*

During FY 2003 there were 265 schools registered with the Board. In addition, the Board registered 22 learning centers. The number of registered schools has been increasing gradually for the past five years. These numbers can be compared with previous years in Table I below.

TABLE 1

Fiscal Year	Number of Schools	Number of Learning Centers
1999	218	8
2000	242	11
2001	252	20
2002	261	20
2003	265	22

Of the 265 institutions registered with the State Board during FY 2003, 118 were accredited by accrediting agencies recognized by the United States Department of Education. The following table is a breakdown of these accredited schools, and their accrediting agency.

TABLE 2: Accredited Schools

	ACCST	ACICS	ABHES	NCA/MSA	DETC	ACCET
Number of Schools	54	45	4	8	3	4

B. School and College Programs

Pursuant to Ohio Administrative Code Section 3332-1-16, the schools and colleges regulated by the Board offer four types of registered instructional programs that can range in length from a few days to over four years:

1. **“Certificate Program”** means generally one or more technical courses usually completed in one to twenty-six weeks, normally with a single skill objective.
2. **“Diploma Program”** means a program of instruction offering technical and basic course work. The program generally ranges in length from six hundred to fifteen hundred clock hours; or more than forty but less than ninety quarter credit hours; or more than twenty-seven but less than sixty semester hours.
3. **“Associate Degree Program”** means a group of technical, basic, and general education courses which full-time students may complete in a minimum of two academic years, six to eight academic quarters, or four semesters.
4. **“Advanced Degree Program”** means a program of instruction at the baccalaureate, masters or doctorate level of instruction that is approved by the Board of Regents pursuant to Ohio Revised Code Section 3332.05.

During FY 2003, Ohio’s career colleges and schools offered a total of 1,104 programs. A breakdown of those programs is contained in Table 3 below.

TABLE 3
Programs Offered by Ohio Career Colleges and Schools

Programs	1999	2000	2001	2002	2003
Advanced Degree	6	8	42	44	1
Associate Degree	230	256	258	250	289
Diploma	250	253	238	259	345
Certificate	195	258	334	399	469
Total Programs	681	775	872	952	1,104

In addition to Ohio based schools, the Board also registers approximately 40 schools that are located out-of-state, but that have registered agents recruiting in Ohio. Table 4 below lists the number of programs offered by both in-state and registered out-of-state schools (1,440).

TABLE 4
FY 2003 Programs Offered by All Registered Colleges and Schools

Programs	In-State	Out-of-State	Total
Advanced Degree	1	47	72
Associate Degree	289	174	429
Diploma	345	100	365
Certificate	469	15	424
Total Programs	1,104	336	1,440

C. *Enrollments and Student Characteristics*

During the FY 2003, career colleges and schools enrolled 60,809 students in programs approved by the Board. Table 5 shows a breakdown of students enrolled at each program level.

TABLE 5
Number of Students Enrolled in Programs Offered by Registered Schools

Programs	In-State	Out-of-State	Total
Advanced Degree	34	416	450
Associate Degree	19,592	2,158	21,750
Diploma	22,947	1,241	24,188
Certificate	13,887	534	14,421
Total Programs	56,460	4,349	60,809

Table 6 provides a breakdown of students by gender and ethnic classification. Compared to traditional higher education students, career college and school students are more likely to be economically disadvantaged, female, minority, and independent of parental income.

TABLE 6
Enrollment Picture for all Registered Schools for FY 2003

Ethnic Designation	Male	Female	Total
Non-Resident Alien	85	108	193
Black/Non-Hispanic	4,198	8,942	13,140
Amer. Indian & Alaskan	86	155	241
Asian & Pacific Islander	146	153	299
Hispanic	540	573	1,113
White/Non-Hispanic	14,021	17,515	31,536
Race Unknown	1,587	3,823	5,410
Ethnic/Gender Unknown			8,887
Total	20,663	31,269	60,809

D. Placement

Placement statistics compiled in this report indicate that 82% of the individuals who complete their education find employment following their graduation. Ohio's career colleges and schools have been of great assistance in helping unemployed adults to find jobs. Some of the schools work closely with government agencies like WIA and Vocational Rehabilitation, and in some cases, employers, to assist in paying the cost of these training programs. Through this effort, career colleges and schools are removing some people from public assistance and once again making them taxpayers.

The following table indicates the general placement activities of the schools registered with the State Board of Career Colleges and Schools.

TABLE 7
Placement

Type of Program	Adv. Degree	Associate	Diploma	Certificate	Total
Total Number of Students	450	21,750	24,188	14,421	60,809
Completions	46	3,760	5,997	9,707	19,510
Withdrawals	141	6,471	3,992	1,763	12,367
Still Enrolled	263	11,536	14,291	3,097	29,187
Placed Related	37	2,351	3,650	4,489	10,527
Placed Un-Related	0	262	278	420	960
Not Placed	5	577	885	863	2,330
Not Available for Placement	4	570	1,184	3,807	5,565
Placement Rate	88%	82%	82%	83%	82%

E. Economic Impact on Ohio

Ohio's 265 registered career colleges and schools provided education and training to 60,809 students during FY 2003. Nearly 20,000 students graduated during the period. The schools are a positive, economic asset to the State, both as businesses and as educational institutions for several reasons.

First, career college and school graduates make a continuing contribution to the economy because of their improved productivity. Graduates of these institutions have higher personal incomes and pay more taxes. Second, career colleges and schools are businesses that pay salaries, buy goods and services from other businesses and pay taxes to the local, state and federal government. The well-established model developed by the American Council on Education indicates that, for colleges and universities, every dollar in total operating expenditures generates approximately \$1.20 of local economic activity after taking a "multiplier" of expenditure cycles into account.¹ Using this calculation we can estimate that career colleges and schools in Ohio generated more than \$250 million of local economic activity during FY 2003. We can also estimate using these same calculations that these schools contributed more than \$15 million as institutions in taxes to support the local, state, and federal government. (This figure excludes income taxes paid by employees on their salaries.)

Finally, using calculations derived from a recent economic study of private schools in California, we can estimate the total additional education costs that Ohio would incur if career colleges and schools did not exist and other public and private institutions were forced to absorb the students currently attending these schools. Using the calculations from the California study, we estimate that it would have been necessary for the state to appropriate an additional \$37 million for higher education during FY 2003 to cover the costs of educating students currently attending Ohio's career colleges and schools.

¹ See Hodgkin, Robert "Estimating the Impact of a College or University on the Local Economy". American Council on Education, October 1990.

F. School Employees

Another part of the economic impact of registered schools is the employment the schools provide for Ohioans. During FY 2003, career colleges and schools provided employment for 4,435 Ohio citizens with total wages of over \$105,000,000.

School employees can be categorized as Administrative, Faculty, Professional, and Other (general support staff). The following table provides a picture of employees that are employed to operate and teach in the schools that are registered with the State Board of Career Colleges and Schools.

TABLE 8
FY 2003 Employees

Full-Time Employees		Part-Time Employees	
Admin.	475	Admin.	77
Instructional	788	Instructional	1,644
Professional	424	Professional	85
Agent	370	Agent	58
Other	237	Other	277
TOTAL	2,294	TOTAL	2,141

V. Fiscal Analysis of Board Activities

A. Revenue and Expenditures

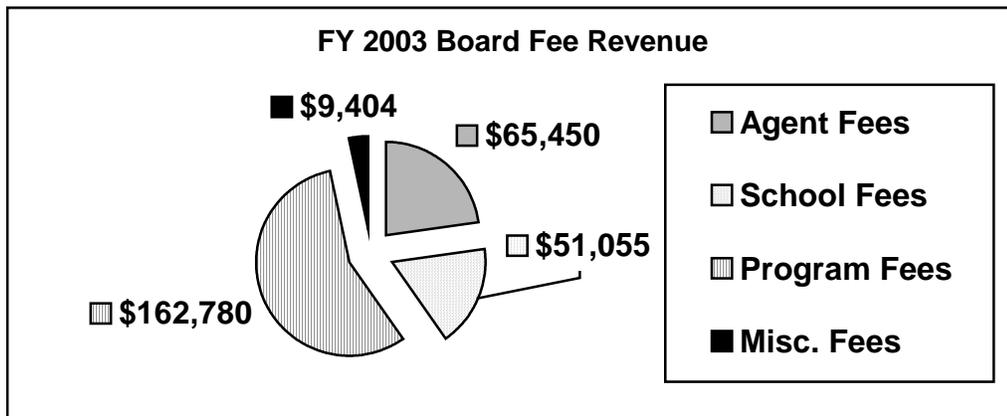

The Board's revenue is generated from fee schedules adopted and approved by the Board. The following table shows a five-year comparison of revenue and expenditures.

TABLE 9

Fiscal Year	1997	1998	1999	2000	2001	2002	2003
Earned Revenue	\$255,441	\$239,566	\$261,399	\$241,083	\$323,365	\$266,088	\$288,689
Expenditures	\$463,813	\$373,763	\$360,220	\$397,383	406,447	\$368,822	\$358,507
State Contribution	\$208,372	\$134,197	\$98,821	\$156,300	\$83,082	\$100,734	\$69,818
GRF Funds	45%	36%	27%	39%	21%	27%	19%
Board Revenue	55%	64%	73%	61%	79%	73%	81%

As Table 9 shows, Board fee revenue for FY 2003 was lower than revenue for FY 2001 but was slightly higher than the revenue generated in FYs 1999, 2000 and 2002. Revenue remains higher than previous fiscal years as a result of the increase in schools and programs approved by the Board during FY 2003. In addition, the Board is receiving higher than normal associate degree renewal revenue resulting from the change in fee collection for associate degrees. Expenditures remain lower as a result of budget reductions implemented by the legislature. The following Chart shows a breakdown of the \$288,689 of revenue generated by the Board during FY 2003:

Chart 2

VI. Division of Investigation and School Compliance

The following report is intended to provide an overview of investigative activity initiated by the Division of Investigation and School Compliance during FY 2003. The report contains statistical data regarding the volume of complaints and an outline of public action taken by the State Board of Career Colleges and Schools.

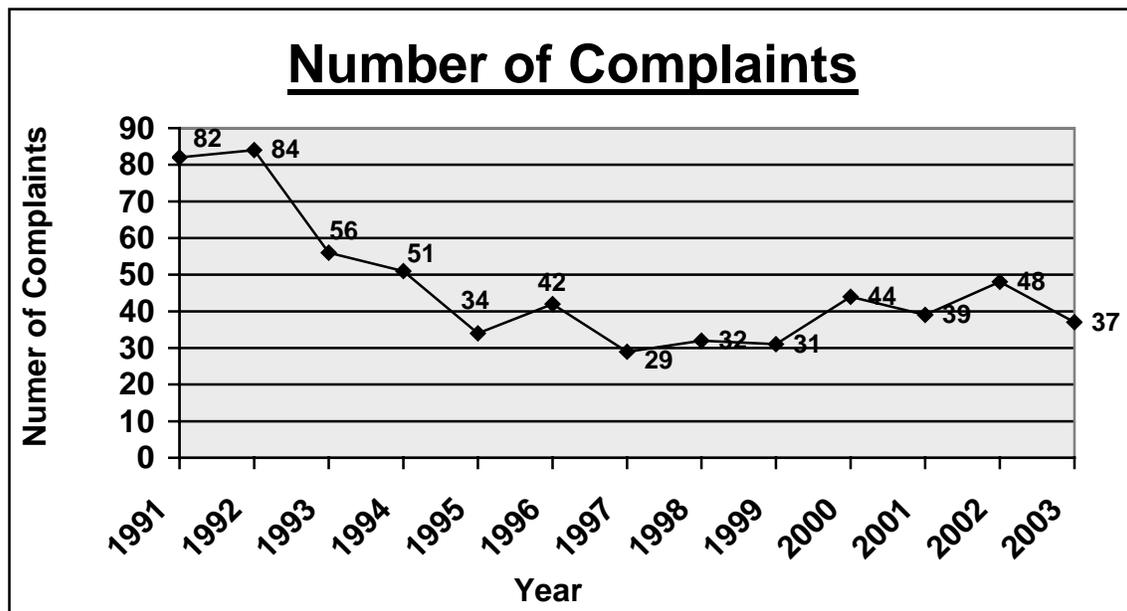

Complaints are broken down as follows:

1. **Student Complaints**
2. **Non-Registered Schools**
3. **Investigative Inquiries**

In addition to these categories, the Division of Investigation and School Compliance, is also responsible for public information requests and assisting in responding to general correspondence and other inquiries received by the Board.

The number of student complaints has dropped significantly since the Board began tracking complaints in FY 1991. That drop is illustrated in the chart below.

Chart 3

A. FY 2003 Statistical Data

During FY 2003, the Division of Investigation and School Compliance initiated a total of 59 cases, categorized as follows:

TABLE 10

Fiscal Year	1999	2000	2001	2002	2003
Student Complaints	31	44	39	48	37
Non-Registered Schools	12	13	11	32	13
Inquiries	59	60	56	21	9
Total	102	116	106	101	59

The number of student complaints decreased in FY 2003, however the nature of the complaints remained fairly constant and the complaints, for the most part, represented isolated problems between individual students and schools. The decreases in non-registered schools and investigative inquiries in FY 2003 can be attributed mainly to a reduction in the number of advertising and recruiting problems with schools as well as a reduction the number of unregistered computer schools that were prevalent for several years.

The nature of the student complaints, which were received in FY 2003, can be broken down into the following general headings:

TABLE 11

Allegation	Number of Complaints
Poor quality of education	10
Failure to make a proper refund	10
Unfair school administrative policies	7
Financial Aid problems	6
Facilities and/or Equipment issues	2
Unethical recruitment or advertising	2

The 13 non-registered schools that were reported in FY 2003 can be broken down as follows by programs offered:

TABLE 12

Type of Program	Number of Cases
Medical	3
Computer	3
Modeling	3
Miscellaneous-Other	4

Inquiries, which are preliminary investigations initiated by the Board under the authority of Section 3332.09(D) of the Revised Code, but that are not student complaints, involve the following types of cases:

TABLE 13

Nature of Complaint	Number of Cases
Advertising or recruitment issues	4
Failure to Respond to Board Requests	2
Other Issues	3

B. Public Action

During FY 2003 the Board initiated formal disciplinary action against 5 schools. The vast majority of these cases involved a school's failure to timely submit fees and/or other required documentation. Most of the cases were resolved informally by obtaining voluntary compliance from the schools.

VII. Student Tuition Recovery Authority

A. General Responsibility

The Student Tuition Recovery Authority ("STRA") and the Student Tuition Recovery Fund ("STRF") came into existence in 1991. The purpose of the Authority is to protect students of any school registered by the State Board of Career Colleges and Schools from tuition loss for the term, whether due to business failure or any other reason for which the student is not legally responsible.

The STRA disburses monetary awards from the STRF to students who were enrolled in institutions that went out of business and did not return to those students their pre-paid tuition or provide a means of completing their program of instruction up to the amount of their pre-paid tuition.

The STRA consists of five members:

1. The Executive Director of the State Board of Career Colleges and Schools;
2. The Executive Director of the Ohio Association of Career Colleges and Schools;
3. The Treasurer of the State or his/her designee;
4. The Chairman of the Senate Committee that primarily deals with education; and
5. The Chairman of the Committee of the House of Representatives that primarily deals with education.

Each registered school is required to pay an annual assessment into the STRF, based on each school's prior year's gross tuition receipts. The State Board of Career Colleges and Schools has the responsibility to collect these funds and may pursue any lawful means of assuring that students of any school registered by the Board do not suffer tuition loss as a result of a business failure or other default of a school.

B. Fiscal Year 2003 Activity

During FY 2003 the STRA paid 13 student claims resulting in total approved payments of \$71,021. The total balance contained in the fund at the end of FY 2003 was \$1,002,447.

APPENDICES:
