The Honorable Bob Taft, Governor of Ohio;

Members of the General Assembly;

Administrators of Registered Schools:

This report is filed in compliance with Ohio Revised Code Sections 149.01 and 3332.031(N). We attest that the information contained herein is an accurate reflection of the activities of this State Board of Career Colleges and Schools (Formerly known as the State Board of Proprietary School Registration), as well as the career colleges and schools registered by the Board, during fiscal year 2004. This is the 30th Annual Report produced by this Board.

Ohio has one of the largest career education systems in the country. The State Board of Career Colleges and Schools is responsible for monitoring and regulating approximately 270 for-profit and non-profit private career colleges and schools in the State of Ohio. During fiscal year 2004, these private career schools educated over 60,000 students in 1,600 programs approved by this Board.

The State Board of Career Colleges and Schools continues to work to assure that career education succeeds for the citizens of Ohio. It is our hope that this Annual Report will provide insight for the citizens of Ohio about the significant, positive contributions of private career colleges and schools in Ohio. On behalf of the State Board Career Colleges and Schools, we hope that you will find our Annual Report informative and enlightening.

Respectfully submitted,

Linda Hanaway

Linda Hanaway, Chairperson

John Ware

John Ware, Executive Director

I. Introduction

The State Board Career Colleges and Schools (“Board”) was created by the Ohio Legislature in 1970 under the name State Board of School and College Registration. In 1989, significant legislative changes (including a name change to State Board of Proprietary School Registration) gave the Board more regulatory authority over career colleges and schools (private, for-profit, post-secondary) in Ohio. It also changed the composition of the Board to include more representatives from the public and it increased the number and responsibilities of its field staff.

In recent years, increased oversight by the Board, as well as by national accrediting agencies and the United States Department of Education, has resulted in many changes to the career school industry. These changes can be seen most dramatically in the reduction of schools registered with the Board since 1991. However, the number of registered schools has increased over the last few years. Those numbers are reflected in Chart 1 below.

Chart 1

II. General Information about the State Board of Career Colleges and Schools

A. *Board Responsibilities*

The Board's general responsibilities include:

1. Maintaining the viability of registered schools through oversight of their programs and curricula along with their business practices, including advertising and recruiting.
2. Monitoring schools that provide educational and related services to a population of students who might not be served in the non-profit or public sector.
3. Protecting reputable schools from unfair competitive practices of unscrupulous school operators and their representatives.
4. Protecting the investment of students who have paid for education and training services.
5. Protecting the citizens of Ohio from fraudulent and unscrupulous school operators and their representatives.

In carrying out these responsibilities, the Board's goals are to offer help, encouragement, and guidance to registered schools so that those Ohioans who choose them will be assured of quality education and training. In that process, the Board strives to uniformly deliver a consistent, fair, and equitable administration of its responsibilities in order to encourage maximum performance, which leads to gainful employment or career enhancement for each graduate of an Ohio career school.

This Annual Report is testimony to the positive impact of Ohio's career colleges and schools. The Board is proud of its role in the regulation of this important post-secondary sector. It feels strongly that, with their continued cooperation, Ohioans can remain assured that their investment in a career college or school is one on which they can depend.

B. The Board Structure

The organizational structure and composition of the Board is established by **Section 3332.03** of the Ohio Revised Code, and the membership consists of the following:

1. The State Superintendent of Public Instruction or an Assistant Superintendent designated by the Superintendent;
 - During Fiscal Year (“FY”) 2004, Dr. Steven Puckett, Assistant Superintendent for the Ohio Department of Education, served in this capacity.
2. The Chancellor of the Ohio Board of Regents or a Vice Chancellor designated by the Chancellor;
 - During FY 2004, Dr. Garrison Walters, Vice Chancellor of the Ohio Board of Regents, served in this capacity.
3. Six members appointed by the Governor, with the advice and consent of the Senate, including:
 - a. Three of the members must be from vocational and technical schools:
 - During FY 2004, Mr. Charles Kramer of Educational Management Services, Inc, and Mr. Neil Collins of Hondros College, and Mr. Ken Miller of RETS Tech Center served as appointed school representatives.
 - b. Two public members without affiliation to regulated schools;
 - During FY 2004 Ms. Linda Hanaway from Beavercreek and Dr. Leonard Kingsley from Toledo, served as the Board's public members.
 - c. One non-voting member who has graduated from a regulated school with a Baccalaureate or an Associate Degree, during the past five years.
 - During FY 2004, this position was vacant.

C. Board Statutory Responsibilities

Ohio Revised Code Sections 3332.01 through 3332.15 require that the Board:

1. Establish minimum standards for the regulation and operation of registered schools, including but not necessarily limited to standards to insure school financial stability.
2. Issue certificates of registration and program authorization to registered schools.
3. Suspend or revoke the certificates of registration or program authorization under certain conditions.
4. Establish minimum standards for certificate, diploma, and degree programs offered by registered schools.
5. Grant permits to agents and/or suspend or revoke an agent's permit.
6. Establish minimum standards for agents, including a code of ethics.
7. Monitor recruitment and admission practices of schools to ensure compliance with the law and the rules of the Board.
8. Adopt rules requiring all schools to provide applicant students, prior to signing an enrollment agreement, written information concerning obligations on the part of any student obtaining a grant or loan, the school's placement rates for each of the preceding three years, and other information the Board deems pertinent.
9. Adopt a rule requiring all schools to include, in the enrollment agreement, notice that the student may direct any problems he/she is having with the school, or complaints he/she has about the school, to the Board.
10. Adopt a rule requiring a uniform tuition refund policy.
11. Adopt a rule establishing minimum standards for all faculty and instructional staff in all instructional programs at a school.
12. Report annually to the Governor and General Assembly on the activities of the Board and career colleges and schools and make legislative recommendations when necessary to enable the Board to better serve the student population and the schools registered with the Board.

III. Overview of Significant Board Activities for Fiscal Year 2004

During Fiscal Year 2004, the State Board of Career Colleges and Schools continued to move forward with many of the internal changes that were started in Fiscal Year 1997. Some of the significant changes and other activities that took place during FY 2004 included:

School Oversight

The Board and its staff continued to carry out its statutory oversight duties by taking the following actions during FY 2004:

- Issued 689 Agent Permits
- Approved 48 New Schools
- Approved 559 New Program, Degrees and Majors
- Renewed 123 Schools
- Renewed 737 Programs and Degrees
- Approved 15 Learning Centers
- Approved 44 Program Name Changes and Revisions
- Approved 24 New School Directors

Many of these Board actions required on-site visits by consultants and staff and, as a result, the Board's staff and consultants made over 235 site visits to various schools throughout the state during FY 2004.

Strategic Planning

The Board approved a five year strategic plan at its July 18, 2001 Board Meeting. As part of the strategic planning initiative, the Board developed a plan of work for FY 2004 that included plans to address the items discussed below.

1. Administrative Rule Changes –Surety Bonds

The Board formed a committee to make recommendations on the surety bond requirements that were incorporated into the changes to administrative rule 3332-1-13. The rule changes went into effect in January and all schools were brought into compliance with the new bonding requirements over the next several months.

2. Closed School Records

During FY 2004, the Board continued its efforts to manage and consolidate the records from closed schools. In July 2003, the Board's staff finalized the removal of approximately 25 file cabinets of records obtained from West Side Institute of Technology. In June 2004, the Board coordinated the transfer of approximately three semi-truck loads of closed school records from Ohio technical College to the Fireproof Records warehouse in Columbus.

3. Technology Initiatives

The Board's staff completed the transition to make all on-line forms interactive by converting the forms into interactive Adobe PDF forms. The Board also continue to streamline its electronic distribution of forms and other information via e-mail and the Board's web site.

4. Personnel Changes

The Board had several significant personnel changes in FY 2004. In October, 2003, Marlene Sevy, who worked for the Board for almost 30 years, retired. The Board reclassified Ms. Sevy's position into an investigative position and the Board hired Ms. Kimberly Stein in January 2004 as the Board's new investigator. In April 2004, the Board also filled the vacant Southwest Ohio consultant position by contracting with Dr. Richard Brubaker.

IV. Data Analysis for Fiscal Year 2004

Contained below is a report and analysis of the data accumulated by the Board for Fiscal Year 2004. This information is presented in an attempt to accurately track the activities of the Board as well as the activities of the schools registered by the Board. The cumulative school data has been compiled from an analysis of the annual reports submitted by each school registered by the Board.

A. Registered Schools

During FY 2004 there were 270 schools registered with the Board. In addition, the Board registered 24 learning centers. The number of registered schools has been increasing gradually for the past five years. These numbers can be compared with previous years in Table I below.

TABLE 1

Fiscal Year	Number of Schools	Number of Learning Centers
1999	218	8
2000	242	11
2001	252	20
2002	261	20
2003	265	22
2004	270	24

Of the 270 institutions registered with the State Board during FY 2004, 114 were accredited by accrediting agencies recognized by the United States Department of Education. The following table is a breakdown of these accredited schools, and their accrediting agency.

TABLE 2: Accredited Schools

	ACCST	ACICS	ABHES	NCA/MSA	DETC	ACCET
Number of Schools	68	64	5	9	4	5

B. School and College Programs

Pursuant to Ohio Administrative Code Section 3332-1-16, the schools and colleges regulated by the Board offer four types of registered instructional programs that can range in length from a few days to over four years:

1. **“Certificate Program”** means generally one or more technical courses usually completed in one to twenty-six weeks, normally with a single skill objective.
2. **“Diploma Program”** means a program of instruction offering technical and basic course work. The program generally ranges in length from six hundred to fifteen hundred clock hours; or more than forty but less than ninety quarter credit hours; or more than twenty-seven but less than sixty semester hours.
3. **“Associate Degree Program”** means a group of technical, basic, and general education courses which full-time students may complete in a minimum of two academic years, six to eight academic quarters, or four semesters.
4. **“Advanced Degree Program”** means a program of instruction at the baccalaureate, masters or doctorate level of instruction that is approved by the Board of Regents pursuant to Ohio Revised Code Section 3332.05.

During FY 2004, Ohio’s career colleges and schools offered a total of 1,156 programs. A breakdown of those programs is contained in Table 3 below.

TABLE 3
Programs Offered by Ohio Career Colleges and Schools

Programs	1999	2000	2001	2002	2003	2004
Advanced Degree	6	8	42	44	1	3
Associate Degree	230	256	258	250	289	316
Diploma	250	253	238	259	345	346
Certificate	195	258	334	399	469	491
Total Programs	681	775	872	952	1,104	1,156

In addition to Ohio based schools, the Board also registers approximately 44 schools that are located out-of-state, but that have registered agents recruiting in Ohio. Table 4 below lists the number of programs offered by both in-state and registered out-of-state schools (1,607).

TABLE 4
FY 2004 Programs Offered by All Registered Colleges and Schools

Programs	In-State	Out-of-State	Total
Advanced Degree	1	34	35
Associate Degree	316	183	489
Diploma	346	165	511
Certificate	491	71	562
Total Programs	1,154	453	1,607

C. *Enrollments and Student Characteristics*

During the FY 2004, career colleges and schools enrolled 60,810 students in programs approved by the Board. Table 5 shows a breakdown of students enrolled at each program level.

TABLE 5
Number of Students Enrolled in Programs Offered by Registered Schools

Programs	In-State	Out-of-State	Total
Advanced Degree	54	591	645
Associate Degree	23,217	2,041	25,258
Diploma	19,244	1,533	20,777
Certificate	13,640	510	14,150
Total Programs	56,135	4,675	60,820

Table 6 provides a breakdown of students by gender and ethnic classification. Compared to traditional higher education students, career college and school students are more likely to be economically disadvantaged, female, minority, and independent of parental income.

TABLE 6
Enrollment Picture for all Registered Schools for FY 2004

Ethnic Designation	Male	Female	Total
Non-Resident Alien	41	39	80
Black/Non-Hispanic	4,526	10,065	14,591
Amer. Indian & Alaskan	58	75	133
Asian & Pacific Islander	143	157	300
Hispanic	532	702	1,234
White/Non-Hispanic	13,841	19,409	33,250
Race Unknown	1,958	4,455	6,413
Ethnic/Gender Unknown			4,819
Total	21,099	34,902	60,820

D. Placement

Placement statistics compiled in this report indicate that 83% of the individuals who complete their education find employment following their graduation. Ohio's career colleges and schools have been of great assistance in helping unemployed adults to find jobs. Some of the schools work closely with government agencies like WIA and Vocational Rehabilitation, and in some cases, employers, to assist in paying the cost of these training programs. Through this effort, career colleges and schools are removing some people from public assistance and once again making them taxpayers.

The following table indicates the general placement activities of the schools registered with the State Board of Career Colleges and Schools.

TABLE 7
Placement

Type of Program	Adv. Degree	Associate	Diploma	Certificate	Total
Total Number of Students	635	25,258	20,777	14,150	60,820
Completions	60	4,291	6,232	9,708	20,291
Withdrawals	182	7,852	4,753	1,226	14,013
Still Enrolled	395	13,207	9,974	3,446	26,996
Placed Related	46	2,704	4,184	5,171	12,105
Placed Un-Related	6	288	271	293	858
Not Placed	5	768	737	918	2,428
Not Available for Placement	3	541	1,067	3,021	4,632
Placement Rate	90%	80%	86%	82%	83%

E. Economic Impact on Ohio

Ohio's 270 registered career colleges and schools provided education and training to 60,820 students during FY 2004. Over 20,000 students graduated during the period. The schools are a positive, economic asset to the State, both as businesses and as educational institutions for several reasons.

First, career college and school graduates make a continuing contribution to the economy because of their improved productivity. Graduates of these institutions have higher personal incomes and pay more taxes. Second, career colleges and schools are businesses that pay salaries, buy goods and services from other businesses and pay taxes to the local, state and federal government. The well-established model developed by the American Council on Education indicates that, for colleges and universities, every dollar in total operating expenditures generates approximately \$1.20 of local economic activity after taking a "multiplier" of expenditure cycles into account.¹ Using this calculation we can estimate that career colleges and schools in Ohio generated more than \$250 million of local economic activity during FY 2004. We can also estimate using these same calculations that these schools contributed more than \$15 million as institutions in taxes to support the local, state, and federal government. (This figure excludes income taxes paid by employees on their salaries.)

Finally, using calculations derived from a recent economic study of private schools in California, we can estimate the total additional education costs that Ohio would incur if career colleges and schools did not exist and other public and private institutions were forced to absorb the students currently attending these schools. Using the calculations from the California study, we estimate that it would have been necessary for the state to appropriate an additional \$37 million for higher education during FY 2004 to cover the costs of educating students currently attending Ohio's career colleges and schools.

¹ See Hodgkin, Robert "Estimating the Impact of a College or University on the Local Economy". American Council on Education, October 1990.

F. School Employees

Another part of the economic impact of registered schools is the employment the schools provide for Ohioans. During FY 2004, career colleges and schools provided employment for 4,733 Ohio citizens with total wages of over \$105,000,000.

School employees can be categorized as Administrative, Faculty, Professional, and Other (general support staff). The following table provides a picture of employees that are employed to operate and teach in the schools that are registered with the State Board of Career Colleges and Schools.

TABLE 8
FY 2004 Employees

Full-Time Employees		Part-Time Employees	
Admin.	550	Admin.	104
Instructional	804	Instructional	1,688
Professional	443	Professional	91
Agent	505	Agent	54
Other	254	Other	240
TOTAL	2,556	TOTAL	2,177

V. Fiscal Analysis of Board Activities

A. Revenue and Expenditures

The Board's revenue is generated from fee schedules adopted and approved by the Board. The following table shows a five-year comparison of revenue and expenditures.

TABLE 9

Fiscal Year	1999	2000	2001	2002	2003	2004
Earned Revenue	\$261,399	\$241,083	\$323,365	\$266,088	\$288,689	\$576,617
Expenditures	\$360,220	\$397,383	406,447	\$378,288	\$363,434	\$394,834
State Contribution	\$98,821	\$156,300	\$83,082	\$112,200	\$74,745	0
GRF Funds	27%	39%	21%	30%	20%	0%
Excess Revenue	N/A	N/A	N/A	N/A	N/A	181,783
Board Revenue	73%	61%	79%	70%	80%	100%

As Table 9 shows, Board fee revenue for FY 2004 was significantly higher than previous fiscal years. This increase was the result of a fee increase that was effective July 1, 2003 and of increased school activity. In addition, following a statutory change that was effective at the beginning of FY 2004 (SB 266), the Board no longer received GRF funding and became essentially self-funded. All Board revenue is now deposited in a rotary fund (the 4K9 fund) and all Board expenditures derive from that fund as well. The following Chart shows a breakdown of the \$576,617 of revenue generated by the Board during FY 2003:

Chart 2

VI. Division of Investigation and School Compliance

The following report is intended to provide an overview of investigative activity initiated by the Division of Investigation and School Compliance during FY 2004. The report contains statistical data regarding the volume of complaints and an outline of public action taken by the State Board of Career Colleges and Schools.

Complaints are broken down as follows:

1. **Student Complaints**
2. **Non-Registered Schools**
3. **Investigative Inquiries**

In addition to these categories, the Division of Investigation and School Compliance, is also responsible for public information requests and assisting in responding to general correspondence and other inquiries received by the Board.

The number of student complaints has dropped significantly since the Board began tracking complaints in FY 1991. That drop is illustrated in the chart below.

Chart 3

A. FY 2004 Statistical Data

During FY 2004, the Division of Investigation and School Compliance initiated a total of 79 cases, categorized as follows:

TABLE 10

Fiscal Year	2000	2001	2002	2003	2004
Student Complaints	44	39	48	37	43
Non-Registered Schools	13	11	32	13	11
Inquiries	60	56	21	9	25
Total	116	106	101	59	79

The number of student complaints increased in FY 2004, however the nature of the complaints remained fairly constant and the complaints, for the most part, represented isolated problems between individual students and schools. The decreases in non-registered schools and investigative inquiries in FY 2004 can be attributed mainly to a reduction in the number of advertising and recruiting problems with schools as well as a reduction the number of unregistered computer schools that were prevalent for several years.

The nature of the student complaints, which were received in FY 2004, can be broken down into the following general headings:

TABLE 11

Allegation	Number of Complaints
Poor quality of education	5
Failure to make a proper refund	15
Unfair school administrative policies	11
Financial Aid problems	10
Unethical recruitment or advertising	2

The 11 non-registered schools that were reported in FY 2004 can be broken down as follows by programs offered:

TABLE 12

Type of Program	Number of Cases
Medical	3
Computer	3
Religious	2
Miscellaneous-Other	3

Inquiries, which are preliminary investigations initiated by the Board under the authority of Section 3332.09(D) of the Revised Code, but that are not student complaints, involve the following types of cases:

TABLE 13

Nature of Complaint	Number of Cases
Advertising or recruitment issues	15
Failure to Respond to Board Requests	4
Other Issues	6

B. Public Action

During FY 2004 the Board initiated formal disciplinary action against 6 schools. The vast majority of these cases involved a school's failure to timely submit fees and/or other required documentation. Most of the cases were resolved informally by obtaining voluntary compliance from the schools.

VII. Student Tuition Recovery Authority

A. General Responsibility

The Student Tuition Recovery Authority ("STRA") and the Student Tuition Recovery Fund ("STRF") came into existence in 1991. The purpose of the Authority is to protect students of any school registered by the State Board of Career Colleges and Schools from tuition loss for the term as a result of a school closure.

The STRA disburses monetary awards from the STRF to students who were enrolled in institutions that went out of business and did not return to those students their pre-paid tuition or provide a means of completing their program of instruction up to the amount of their pre-paid tuition.

The STRA consists of five members:

1. The Executive Director of the State Board of Career Colleges and Schools;
2. The Executive Director of the Ohio Association of Career Colleges and Schools;
3. The Treasurer of the State or his/her designee;
4. The Chairman of the Senate Committee that primarily deals with education; and
5. The Chairman of the Committee of the House of Representatives that primarily deals with education.

Each registered school is required to pay an annual assessment into the STRF, based on each school's prior year's gross tuition receipts. The State Board of Career Colleges and Schools has the responsibility to collect these funds and may pursue any lawful means of assuring that students of any school registered by the Board do not suffer tuition loss as a result of a business failure or other default of a school.

B. Fiscal Year 2004 Activity

During FY 2004 the STRA paid 12 student claims resulting in total approved payments of \$39,022. The total balance contained in the fund at the end of FY 2004 was \$1,040,546.

APPENDICES:

1. **Appendix A-1:** A listing of all schools and colleges in alpha order.
2. **Appendix A-2:** A geographical listing of all Ohio schools by county.
