Honorable Governor Ted Strickland;

Members of the General Assembly;

Administrators of Registered Schools:

This report is filed in compliance with Ohio Revised Code Sections 149.01 and 3332.031(N). We attest that the information contained herein is an accurate reflection of the activities of this State Board of Career Colleges and Schools (formerly known as the State Board of Proprietary School Registration), as well as the career colleges and schools registered by the Board, during fiscal year 2008. This is the 34th Annual Report produced by this Board.

Ohio has one of the largest career education systems in the country. The State Board of Career Colleges and Schools is responsible for monitoring and regulating approximately 291 for-profit and non-profit private career colleges and schools in the State of Ohio. During fiscal year 2008, these private career schools educated over 70,000 students in 1,900 programs approved by this Board.

The State Board of Career Colleges and Schools continues to work to assure that career education succeeds for the citizens of Ohio. It is our hope that this Annual Report will provide insight for the citizens of Ohio about the significant, positive contributions of private career colleges and schools in Ohio. On behalf of the State Board Career Colleges and Schools, we hope that you will find our Annual Report informative and enlightening.

Respectfully submitted,

I. Introduction

The State Board Career Colleges and Schools (“Board”) was created by the Ohio Legislature in 1970. In 1989, significant legislative changes gave the Board more regulatory authority over career colleges and schools (private, for-profit, post-secondary) in Ohio. It also changed the composition of the Board to include more representatives from the public and it increased the number and responsibilities of its field staff.

In recent years, increased oversight by the Board, as well as by national accrediting agencies and the United States Department of Education, has resulted in many changes to the career school industry. These changes resulted in a reduction of schools registered with the Board during the period 1988-1993. However, the number of registered schools began increasing again after 1999. Those numbers are reflected in Chart 1 below.

Chart 1

In addition to an increase in the number of schools, the number of enrolled students has also increased steadily over the last 6 years as illustrated by Table 1 below.

II. General Information about the State Board of Career Colleges and Schools

A. *Board Responsibilities*

The Board's general responsibilities include:

1. Maintaining the viability of registered schools through oversight of their programs and curricula along with their business practices, including advertising and recruiting.
2. Monitoring schools that provide educational and related services to a population of students who might not be served in the non-profit or public sector.
3. Protecting reputable schools from unfair competitive practices of unscrupulous school operators and their representatives.
4. Protecting the investment of students who have paid for education and training services.
5. Protecting the citizens of Ohio from fraudulent and unscrupulous school operators and their representatives.

In carrying out these responsibilities, the Board's goals are to offer help, encouragement, and guidance to registered schools so that those Ohioans who choose them will be assured of quality education and training. In that process, the Board strives to uniformly deliver a consistent, fair, and equitable administration of its responsibilities in order to encourage maximum performance, which leads to gainful employment or career enhancement for each graduate of an Ohio career school.

This Annual Report is testimony to the positive impact of Ohio's career colleges and schools. The Board is proud of its role in the regulation of this important post-secondary sector. It feels strongly that, with their continued cooperation, Ohioans can remain assured that their investment in a career college or school is one on which they can depend.

B. The Board Structure

The organizational structure and composition of the Board is established by **Section 3332.03** of the Ohio Revised Code, and the membership consists of the following:

1. The State Superintendent of Public Instruction or an Assistant Superintendent designated by the Superintendent;
 - During Fiscal Year (“FY”) 2008, Dr. Steven Puckett, Assistant Superintendent for the Ohio Department of Education, served in this capacity.
2. The Chancellor of the Ohio Board of Regents or a Vice Chancellor designated by the Chancellor;
 - During FY 2008, this position was vacant.
3. Six members appointed by the Governor, with the advice and consent of the Senate, including:
 - a. Three of the members must be representatives from vocational and technical schools:
 - During FY 2008, Mr. Charles Kramer of Educational Management Services, Inc, Mr. Ken Miller of Trumbull Business College, and Mr. Dennis Bartels of Bradford College served as appointed school representatives.
 - b. Two public members without affiliation to regulated schools;
 - During FY 2008 Dr. Kenneth Searfoss from Toledo, Ms. Linda Hanaway from Dayton (resigned 12/2007), and Dr. Jerome Brockway from Ashtabula (appointed 1/2008) served as the Board's public members.
 - c. One non-voting member who has graduated from a regulated school with a Baccalaureate or an Associate Degree, during the past five years.
 - During FY 2008, this position was vacant.

C. Board Statutory Responsibilities

Ohio Revised Code Sections 3332.01 through 3332.15 require that the Board:

1. Establish minimum standards for the regulation and operation of registered schools, including but not necessarily limited to standards to insure school financial stability.
2. Issue certificates of registration and program authorization to registered schools.
3. Suspend or revoke the certificates of registration or program authorization under certain conditions.
4. Establish minimum standards for certificate, diploma, and degree programs offered by registered schools.
5. Grant permits to agents and/or suspend or revoke an agent's permit.
6. Establish minimum standards for agents, including a code of ethics.
7. Monitor recruitment and admission practices of schools to ensure compliance with the law and the rules of the Board.
8. Adopt rules requiring all schools to provide applicant students, prior to signing an enrollment agreement, written information concerning obligations on the part of any student obtaining a grant or loan, the school's placement rates for each of the preceding three years, and other information the Board deems pertinent.
9. Adopt a rule requiring all schools to include, in the enrollment agreement, notice that the student may direct any problems he/she is having with the school, or complaints he/she has about the school, to the Board.
10. Adopt a rule requiring a uniform tuition refund policy.
11. Adopt a rule establishing minimum standards for all faculty and instructional staff in all instructional programs at a school.
12. Report annually to the Governor and General Assembly on the activities of the Board and career colleges and schools and make legislative recommendations when necessary to enable the Board to better serve the student population and the schools registered with the Board.

III. Overview of Significant Board Activities for Fiscal Year 2008

During Fiscal Year 2008, the State Board of Career Colleges and Schools continued to move forward with many of the initiatives contained in the Board's five year strategic plan. Some of the significant changes and other activities that took place during FY 2008 included:

School Oversight

The Board and its staff continued to carry out its statutory oversight duties by taking the following actions during FY 2008:

- Issued 1037 Agent Permits
- Approved 39 New Schools
- Approved 394 New Program, Degrees and Majors
- Renewed 130 Schools
- Renewed 808 Programs and Degrees
- Approved 16 Learning Centers
- Approved 49 Program Name Changes and Revisions
- Approved 27 New School Directors

Many of these Board actions required on-site visits by consultants and staff and, as a result, the Board's staff and consultants made over 250 site visits to various schools throughout the state during FY 2008.

Administrative Rule Changes

During FY 2008 the Board conducted a review of the following six (6) Administrative Rules:

Rule # 3332-1-04	Distance education programs
Rule # 3332-1-04.3	Student enrollment polices and practices
Rule # 3332-1-10	Tuition and fees
Rule # 3332-1-17.2	Disciplinary action involving agents
Rule # 3332-1-24	Completion and placement
Rule # 3332-1-26	Off campus learning centers

These rules were subject to review by the Board's rules review committee and the proposed changes were preliminarily approved by the Board at its September 26, 2007 meeting. The final rule changes were approved by the Board following a public hearing at the Board's January 30, 2008 meeting. The rules were presented to JCARR at its February 19, 2008 meeting and were effective on June 1, 2008.

IV. Data Analysis for Fiscal Year 2008

Contained below is a report and analysis of the data accumulated by the Board for Fiscal Year 2008. This information is presented in an attempt to accurately track the activities of the Board as well as the activities of the schools registered by the Board. The cumulative school data has been compiled from an analysis of the annual reports submitted by each school registered by the Board.

A. *Registered Schools*

During FY 2008 there were 282 schools registered with the Board. In addition, the Board registered 33 learning centers. These numbers can be compared with previous years in Table 2 below.

TABLE 2: Total Number of Registered Schools

Fiscal Year	Number of Schools	Number of Learning Centers
1999	218	8
2000	242	11
2001	252	20
2002	261	20
2003	265	22
2004	270	24
2005	285	33
2006	282	35
2007	279	33
2008	291	27

Of the 291 institutions registered with the State Board during FY 2008, 148 were accredited by accrediting agencies recognized by the United States Department of Education. The following table is a breakdown of these accredited schools, and their accrediting agency.

TABLE 3: Accredited Schools

B. School and College Programs and Student Enrollment

Pursuant to Ohio Administrative Code Section 3332-1-16, the schools and colleges regulated by the Board offer four types of registered instructional programs that can range in length from a few days to over four years:

1. **“Certificate Program”** means generally one or more technical courses usually completed in one to twenty-six weeks, normally with a single skill objective.
2. **“Diploma Program”** means a program of instruction offering technical and basic course work. The program generally ranges in length from six hundred to fifteen hundred clock hours; or more than forty but less than ninety quarter credit hours; or more than twenty-seven but less than sixty semester hours.
3. **“Associate Degree Program”** means a group of technical, basic, and general education courses which full-time students may complete in a minimum of two academic years, six to eight academic quarters, or four semesters.
4. **“Advanced Degree Program”** means a program of instruction at the baccalaureate, masters or doctorate level of instruction that is approved by the Ohio Board of Regents pursuant to Ohio Revised Code Section 3332.05.

During FY 2008, Ohio’s career colleges and schools offered a total of 1,404 programs. A breakdown of those programs is contained in Table 4 below.

TABLE 4: Programs Offered by Ohio Career Colleges and Schools

Programs	2002	2003	2004	2005	2006	2007	2008
Advanced Degree	44	1	1	1	1	0	14
Associate Degree	250	289	316	383	397	422	450

Total Programs	952	1,104	1,154	1,318	1,332	1,306	1,404

In addition to Ohio based schools, the Board also registers approximately 45 schools that are located out-of-state, but that have registered agents recruiting in Ohio. Table 5 below lists the number of programs (1,971) offered by both in-state and registered out-of-state schools.

TABLE 5: FY 2008 Programs Offered by All Registered Colleges and Schools

Diploma Level	464	210	674
Certificate Level	476	59	535
Total Programs	1,404	567	1,971

During FY 2008, registered career colleges and schools enrolled 75,848 students in programs approved by the Board. Table 6 shows a breakdown of students enrolled at each program level.

Certificate Programs	10,060	305	10,365
Total All Programs	70,426	5,422	75,848

Over the past seven (7) years there has also been a significant increase in the number of students enrolled in associate degree level programs as shown by Table 7.

TABLE 7: Total Number of Students Enrolled in Associate Degree Programs in Ohio

C. Employment After Graduation

Placement statistics compiled in this report indicate that 81% of the individuals who complete their education find employment following their graduation. Ohio's career colleges and schools have been of great assistance in helping unemployed adults to find jobs. Some of the schools work closely with government agencies like WIA and Vocational Rehabilitation, and in some cases, employers, to assist in paying the cost of these training programs. Through this effort, career colleges and schools are removing some people from public assistance and once again making them taxpayers.

The following table indicates the general placement activities of the schools registered with the State Board of Career Colleges and Schools.

TABLE 8: Employment Statistics

Type of Program	Degree Programs	Diploma Programs	Certificate Programs	Total All Programs
Total Number of Students	37,354	28,129	10,365	75,848

D. School Employees

Another part of the economic impact of registered schools is the employment the schools provide for Ohioans. During FY 2008, career colleges and schools provided employment for 7,034 Ohio citizens with total wages of over \$160,000,000.

School employees can be categorized as Administrative, Faculty, Professional, and Other (general support staff). The following table provides a picture of employees that are employed to operate and teach in the schools that are registered with the State Board of Career Colleges and Schools.

E. Economic Impact on Ohio

TABLE 10: Economic Impact

Year	Number of Schools	Total Annual Wages Paid	Gross School Income	Gross School Expenditures
2006	282	\$123,755,860	\$369,183,581	\$290,241,402
2007	279	\$139,843,110	\$422,150,614	\$335,418,421
2008	291	\$160,830,067	\$499,726,134	\$382,603,136

Ohio's 291 registered career colleges and schools provided education and training to over 70,000 students during FY 2008. Over 20,000 students graduated during the period. The schools are a positive, economic asset to the State, both as businesses and as educational institutions for several reasons.

First, career college and school graduates make a continuing contribution to the economy because of their improved productivity. Graduates of these institutions have higher personal incomes and pay more taxes. Second, career colleges and schools are businesses that pay salaries, buy goods and services from other businesses and pay taxes to the local, state and federal government. The well-established model developed by the American Council on Education indicates that, for colleges and universities, every dollar in total operating expenditures generates approximately \$1.20 of local economic activity after taking a "multiplier" of expenditure cycles into account.¹ Using this calculation we can estimate that career colleges and schools in Ohio generated more than \$450 million of local economic activity during FY 2008. We can also estimate using these same calculations that these schools contributed more than \$37 million as institutions in taxes to support the local, state, and federal government. (This figure excludes income taxes paid by employees on their salaries.)

Finally, using calculations derived from a recent economic study of private schools in California, we can estimate the total additional education costs that Ohio would incur if career colleges and schools did not exist and other public and private institutions were forced to absorb the students currently attending these schools. Using the calculations from the California study, we estimate that it would have been necessary for the state to appropriate an additional \$75 million for higher education during FY 2008 to cover the costs of educating students currently attending Ohio's career colleges and schools.

V. Fiscal Analysis of Board Activities

A. Revenue and Expenditures

The Board's revenue is generated from fee schedules adopted and approved by the Board. The following table shows a four-year comparison of revenue and expenditures.

TABLE 11

Fiscal Year	2005	2006	2007	2008
Earned Revenue	\$628,287	\$568,819	\$686,624	\$646,945
Expenditures	\$415,728	\$481,829	\$494,724	\$496,950
Excess Revenue	212,559	86,990	191,900	149,995

Following a statutory change that was effective at the beginning of FY 2004, the Board no longer receives GRF funding and became essentially self-funded. All Board revenue is now deposited in a rotary fund (the 4K9 fund) and all Board expenditures derive from that fund as well. The following Chart shows a breakdown of the \$646,945 of revenue generated by the Board during FY 2008:

Chart 2

VI. Division of Investigation and School Compliance

The following report is intended to provide an overview of investigative activity initiated by the Division of Investigation and School Compliance during FY 2008. The report contains statistical data regarding the volume of complaints and an outline of public action taken by the State Board of Career Colleges and Schools.

Complaints are broken down as follows:

1. **Student Complaints**
2. **Non-Registered Schools**
3. **Investigative Inquiries**

In addition to these categories, the Division of Investigation and School Compliance, is also responsible for public information requests and assisting in responding to general correspondence and other inquiries received by the Board.

The number of student complaints remained fairly consistent during the period from FY 2000-2005, however, the number of student complaints has increased the past three years. The increase in complaints in FY 2006-2008 can be attributed mainly to an increasing numbers of schools and programs. That number of student complaints for each year is listed in the chart below.

Chart 3

A. FY 2008 Statistical Data

During FY 2008, the Division of Investigation and School Compliance initiated a total of 79 cases, categorized as follows:

TABLE 12

Fiscal Year	2004	2005	2006	2007	2008
Student Complaints	43	40	69	54	58
Non-Registered Schools	11	16	19	12	11
Inquiries	25	31	13	17	10
Total	79	87	101	83	79

The number of total complaints received in FY 2008 is consistent with previous years and the complaints, for the most part, represented isolated problems between individual students and schools. Most complaints are normally resolved by achieving voluntary compliance from the schools.

The nature of the student complaints, which were received in FY 2008, can be broken down into the following general headings:

TABLE 13

Allegation	Number of Complaints
Poor quality of education	17
Failure to make a proper refund	7
Unfair school administrative policies	17
Financial aid problems	8
Involuntary dismissal issues	4
Admissions problems	5

The 11 non-registered schools that were reported in FY 2008 can be broken down as follows by programs offered:

TABLE 14

Type of Program	Number of Cases
Modeling	2
Healthcare	4
Miscellaneous-Other	5

Inquiries, which are preliminary investigations initiated by the Board under the authority of Section 3332.09(D) of the Revised Code, but that are not student complaints, involve the following types of cases:

TABLE 15

Nature of Complaint	Number of Cases
Advertising or recruitment issues	6
Other issues	4

For more detailed information about specific complaints, please contact the Board offices.

VII. Student Tuition Recovery Authority

A. General Responsibility

The Student Tuition Recovery Authority ("STRA") and the Student Tuition Recovery Fund ("STRF") came into existence in 1991. The purpose of the Authority is to protect students of any school registered by the State Board of Career Colleges and Schools from tuition loss for the term as a result of a school closure.

The STRA disburses monetary awards from the STRF to students who were enrolled in institutions that went out of business and did not return to those students their pre-paid tuition or provide a means of completing their program of instruction up to the amount of their pre-paid tuition.

The STRA consists of five members (2 ex-officio):

1. The Executive Director of the State Board of Career Colleges and Schools;
2. The Executive Director of the Ohio Association of Career Colleges and Schools;
3. The Treasurer of the State or his/her designee;
4. The Chairman of the Senate Committee that primarily deals with education (ex-officio member); and
5. The Chairman of the Committee of the House of Representatives that primarily deals with education (ex-officio member).

Each registered school is required to pay an annual assessment into the STRF, based on each school's prior year's gross tuition receipts. The State Board of Career Colleges and Schools has the responsibility to collect these funds and may pursue any lawful means of assuring that students of any school registered by the Board do not suffer tuition loss as a result of a business failure or other default of a school.

B. Fiscal Year 2008 Activity

During FY 2008, the STRA paid approved student claims in the amount of \$4,150. The total balance contained in the Student Tuition Recovery Fund at the end of FY 2008 was \$1,449,174.
