

I. Introduction

The State Board of Proprietary School Registration (“Board”) was created in 1989 by House Bill 153 to replace the State Board of School and College Registration which was originally created by the Ohio Legislature in 1970. The changes brought about in 1989 by House Bill 153 gave the Board more regulatory authority over proprietary (private, for-profit, post-secondary) schools and colleges in Ohio. It also changed the composition of the Board to include more representatives from the public and it increased the number and responsibilities of its field staff.

In recent years, increased oversight by the Board, as well as by national accrediting agencies and the United States Department of Education, has resulted in many changes to the proprietary school industry. These changes can be seen most dramatically in the reduction of proprietary schools registered with the Board since 1991. However, the number of registered schools has leveled off over the last few years. Those numbers are reflected in Chart 1 below.

Chart 1

II. General Information about the State Board of Proprietary School Registration

A. *Board Responsibilities*

The Board's general responsibilities include:

1. Maintaining the viability of registered schools through oversight of their programs and curricula along with their business practices, including advertising and recruiting.
2. Monitoring schools that provide educational and related services to a population of students who might not be served in the non-profit or public sector.
3. Protecting reputable schools from unfair competitive practices of unscrupulous school operators and their representatives.
4. Protecting the investment of students who have paid for education and training services.
5. Protecting the citizens of Ohio from fraudulent and unscrupulous school operators and their representatives.

In carrying out these responsibilities, the Board's goals are to offer help, encouragement, and guidance to registered schools so that those Ohioans who choose them will be assured of quality education and training. In that process, the Board strives to uniformly deliver a consistent, fair, and equitable administration of its responsibilities in order to encourage maximum performance, which leads to gainful employment or career enhancement for each graduate of an Ohio proprietary school.

This Annual Report is testimony to the positive impact of Ohio's proprietary institutions. The Board is proud of its role in the regulation of this important post-secondary sector. It feels strongly that, with their continued cooperation, Ohioans can remain assured that their investment in a proprietary school is one on which they can depend.

B. The Board Structure

The organizational structure and composition of the Board is established by **Section 3332.03** of the Ohio Revised Code, and the membership consists of the following:

1. The State Superintendent of Public Instruction or an Assistant Superintendent designated by the Superintendent;
 - During Fiscal Year (“FY”) 2001, Dr. Steven Puckett, Assistant Superintendent for the Ohio Department of Education, served in this capacity.
2. The Chancellor of the Ohio Board of Regents or a Vice Chancellor designated by the Chancellor;
 - \$ During FY 2001, Dr. Garrison Walters, Vice Chancellor of the Ohio Board of Regents, served in this capacity.
3. Five members appointed by the Governor, with the advice and consent of the Senate, including:
 - a. Two of the members must be from vocational and technical schools:
 - \$ During FY 2001, Mr. Charles Kramer of West Side Institute of Technology, and Mr. Jeffrey Barnes of Hondros College, served as appointed school representatives.
 - b. Two public members without affiliation to regulated schools;
 - \$ During FY 2001, Mr. Vincent Francioli (7/00-12/00) from Cleveland, Ms. Linda Hanaway (3/01-6/01) from Dayton, and Dr. Leonard Kingsley from Toledo, served as the Board's public members.
 - c. One member who has graduated from a regulated school with a Baccalaureate or an Associate Degree, during the past five years.
 - \$ During FY 2001, Ms. Betty Steward, a graduate of Ohio Business College, served as the Board's student representative.

C. Board Statutory Responsibilities

Ohio Revised Code Sections 3332.01 through 3332.15 require that the Board:

1. Establish minimum standards for the regulation and operation of proprietary schools, including but not necessarily limited to standards to insure school financial stability.
2. Issue certificates of registration and program authorization to proprietary schools.
3. Suspend or revoke the certificates of registration or program authorization under certain conditions.
4. Establish minimum standards for certificate, diploma, and degree programs offered by proprietary schools.
5. Grant permits to agents and/or suspend or revoke an agent's permit.
6. Establish minimum standards for agents, including a code of ethics.
7. Monitor recruitment and admission practices of schools to ensure compliance with the law and the rules of the Board.
8. Adopt rules requiring all schools to provide applicant students, prior to signing an enrollment agreement, written information concerning obligations on the part of any student obtaining a grant or loan, the school's placement rates for each of the preceding three years, and other information the Board deems pertinent.
9. Adopt a rule requiring all schools to include, in the enrollment agreement, notice that the student may direct any problems he/she is having with the school, or complaints he/she has about the school, to the Board.
10. Adopt a rule requiring a uniform tuition refund policy.
11. Adopt a rule establishing minimum standards for all faculty and instructional staff in all instructional programs at a school.
12. Report annually to the Governor and General Assembly on the activities of the Board and proprietary schools and make legislative recommendations when necessary to enable the Board to better serve the student population and the schools registered with the Board.

III. Overview of Significant Board Activities for Fiscal Year 2001

During Fiscal Year 2001, the State Board of Proprietary School Registration continued to move forward with many of the internal changes that were started in Fiscal Year 1997. Some of the significant changes and other activities that took place during FY 2001 included:

Strategic Planning Initiative

At its January 24, 2001 Board meeting, the Board gave formal approval to enter into a contract with Strategic Leadership Associates, Inc. for the purpose of assisting the Board the development of a strategic plan through Fiscal Year ("FY") 2006. As an initial step in this process all registered school schools were asked to complete an anonymous and confidential organizational effectiveness survey. Surveys were distributed by the Board to registered schools operating in the State of Ohio.

On March 14, 2001, Board members reviewed the Organizational Effectiveness Survey Report as part of the initial strategic planning work session. Based on the survey findings, Board members developed the initial elements of the Board's Vision and Strategy. A subsequent Board Retreat was conducted on April 25, 2001 to complete Board strategic planning elements. Participants included Board members, staff, and consultant evaluators.

On May 14, 2001, Board staff and consultant evaluators met to review program, personnel, and operations elements of the plan. A final review of the Vision and Strategy was conducted with the Board and Executive Director on June 6, 2001 to complete the final draft. The Board approved the final **SBPSR 2006: Vision and Strategy** document at its July 18, 2001 Board Meeting.

Technology and Communications Initiatives

In April 2001, the Board implemented a new automated phone answering system that had been under development for several months. This will give the Board more flexibility in the future in hiring options as the new phone system has eliminated the need for a receptionist. In addition to the changes to the phone system, the Board continues to develop its web site that became operational in August 1998. During FY 2001, the Board continued to update and make available additional information via the web site.

Fiscal Years 2002-2003 Biennium Budget

On August 18, 2000 the Board submitted its proposed budget for the FY 2002-2003 biennium to the Office of Budget and Management (“OBM”). In the request the Board agreed to accept the initial core budget levels provided by OBM that included a 3% reduction in the Board’s budget for FY 2002 and an overall increase of 1.2% over the biennium. On December 18, 2000, the Board received OBM’s budget recommendations that included a 13% reduction from the Board’s FY 2002 core budget level and a 16% reduction from the Board’s core budget level in FY 2003.

On February 14, 2001 the Board’s executive director testified before the Higher Education subcommittee of the House Finance Committee concerning the Board’s budget request. On May 9th the executive director testified before the Senate Finance Committee. Despite the objections of the Board, the budget as approved by the legislature and the Governor resulted in a reduction of over 20% in the Board’s appropriation for both FY 2002 and FY 2003.

Administrative Rule Review

During FY 2001 the Board completed its review of ten Administrative Rules. The following rules were reviewed during FY 2001:

Rule # 3332-1-01	Rescind and New
Rule # 3332-1-045	Amend
Rule # 3332-1-08	Amend
Rule # 3332-1-10	Amend
Rule # 3332-1-14	Rescind and New
Rule # 3332-1-16	Amend
Rule # 3332-1-172	No change
Rule # 3332-1-18	Rescind and New
Rule # 3332-1-20	Rescind and New
Rule # 3332-1-21	Rescind and New

These rules were subject to review by the Board’s rules review committee that presented its proposed recommendations to the Board on October 18, 2000. On December 6, 2000, the Board adopted the rule changes as proposed by the committee. The administrative rules were formally submitted to the Joint Committee on Agency Rule Review (JCARR) on December 21, 2000 and were subject to a public hearing before the Board on January 24, 2001. On March 5, 2001 the proposed rule changes were approved by JCARR and the new rules became effective April 2, 2001.

School Oversight:

The Board and its staff continued to carry out its statutory oversight duties by taking the following actions during FY 2001:

- ! Issued 685 Agent Permits
- ! Approved 39 New Schools
- ! Approved 355 New Program, Degrees and Majors
- ! Renewed 123 Schools
- ! Renewed 591 Programs and Degrees
- ! Approved 22 Learning Centers
- ! Approved 42 Program Name Changes and Revisions
- ! Approved 28 School Name and Address Changes
- ! Approved 45 New School Directors

Many of these Board actions required on-site visits by consultants and staff and, as a result, the Board's staff and consultants made over 250 site visits to various schools throughout the state during FY 2001. The Board also continued its efforts to effectuate the flow of communication between the Board, schools, and the general public. In this regard, the Board issued four newsletters during FY 2001, and continued to update its information technology to assist the Board with making more information available electronically during the next few years. Other activities of the Board during FY 2001 including revenue and expenditures, investigations, and the Student Tuition Recovery Fund, are detailed elsewhere in this report.

IV. Data Analysis for Fiscal Year 2001

Contained below is a report and analysis of the data accumulated by the Board for Fiscal Year 2001. This information is presented in an attempt to accurately track the activities of the Board as well as the activities of the schools registered by the Board. The cumulative proprietary school data has been compiled from an analysis of the annual reports submitted by each school registered by the Board.

A. Registered Schools

During FY 2001 there were 252 schools registered with the Board. In addition, the Board registered 20 learning centers. These numbers can be compared with previous years in Table I below.

TABLE 1

Fiscal Year	Number of Schools	Number of Learning Centers
1997	234	6
1998	224	205
1999	218	8
2000	242	11
2001	252	20

The reduction in registered schools and increase in learning centers during FY 1997-1999 can be directly attributed to the activities of one school, H&R Block. During FY 1998, H&R Block registered 195 learning centers and reduced their number of registered schools by 19, following the Board's efforts to bring the school in compliance with the Board's learning center rule. However, during FY 1999, H&R Block became exempt from registration with the Board when they stopped charging tuition.

Of the 252 institutions registered with the State Board during FY 2001, 132 were accredited by accrediting agencies recognized by the United States Department of Education. The following table is a breakdown of these accredited schools, and their accrediting agency.

TABLE 2

	ACCST	ACICS	ABHES	NCA	DETC	ACCET

Number of Schools	53	52	12	9	4	2
-------------------	----	----	----	---	---	---

B. School and College Programs

Pursuant to Ohio Administrative Code Section 3332-1-16, the schools and colleges regulated by the Board offer four types of registered instructional programs that can range in length from a few days to over four years:

1. **“Certificate Program”** means generally one or more technical courses usually completed in one to twenty-six weeks, normally with a single skill objective.
2. **“Diploma Program”** means a program of instruction offering technical and basic course work. The program generally ranges in length from six hundred to fifteen hundred clock hours; or more than forty but less than ninety quarter credit hours; or more than twenty-seven but less than sixty semester hours.
3. **“Associate Degree Program”** means an organized group of technical, basic, and general education courses which full-time students may complete in a minimum of two academic years, six to eight academic quarters, or four semesters.
4. **“Advanced Degree Program”** means a program of instruction at the baccalaureate, masters or doctorate level of instruction that is approved by the Board of Regents pursuant to Ohio Revised Code Section 3332.05.

During FY 2001, Ohio’s proprietary schools offered a total of 872 programs. A breakdown of those programs is contained in Table 3 on the next page.

TABLE 3
Programs Offered by Ohio Proprietary Schools

Programs	1999	2000	2001
Advanced Degree	6	8	42
Associate Degree	230	256	258
Diploma	250	253	238
Certificate	195	258	334
Total Programs	681	775	872

During FY 2001, registered proprietary schools, including both in-state and out-of-state schools, offered a total of 1,193 programs. A breakdown of those programs is contained in Table 4 below.

TABLE 4
FY 2001 Programs Offered by Registered Proprietary Schools

Programs	In-State	Out-of-State	Total
Advanced Degree	42	32	74
Associate Degree	258	177	435
Diploma	238	95	333
Certificate	334	17	351
Total Programs	872	321	1193

C. Enrollments and Student Characteristics

During the FY 2001, proprietary schools enrolled 62,179 students in programs approved by the Board. Compared to traditional higher education students, proprietary students are more likely to be economically disadvantaged, female, minority, and independent of parental income.

TABLE 5
Enrollment Picture for all Registered Schools for FY 2001

Ethnic Designation	Male	Female	Total
Non-Resident Alien	110	59	169
Black/Non-Hispanic	4,316	5,793	10,109
Amer. Indian & Alaskan	72	57	129

White/Non-Hispanic	14,761	14,133	28,894
Race Unknown	1,553	3,222	4,775
Ethnic/Gender Unknown			16,752
Total	21,524	23,903	62,179

TABLE 6
Number of Students Enrolled in Programs Offered by Registered Schools

Programs	In-State	Out-of-State	Total
Advanced Degree	3,989	159	4,148
Associate Degree	17,358	3,647	21,005
Diploma	21,870	1,529	23,399

Certificate	13,261	366	13,627
Total Programs	56,478	5,701	62,179

D. Placement

Placement statistics compiled in this report indicate that 89% of the individuals who complete their education find employment following their graduation. Ohio's proprietary schools have been of great assistance in helping unemployed adults to find jobs. Some of the schools work closely with government agencies like WIA and Vocational Rehabilitation, and in some cases, employers, to assist in paying the cost of these training programs. Through this effort, proprietary schools are removing some people from public assistance and once again making them taxpayers.

The following table indicates the general placement activities of the schools registered with the State Board of Proprietary School Registration.

TABLE 7
Placement

Type of Program	Adv. Degree	Associate	Diploma	Certificate	Total
Total Number of Students	4,148	21,005	23,399	13,627	62,179
Completions	306	3,681	4,730	9,344	18,051
Withdrawals	885	6,504	6,311	1,462	15,162
Still Enrolled	2,866	11,599	12,247	2,980	29,692
Placed Related	270	2,800	2,767	5,203	11,040
Placed Un-Related	11	157	151	323	642
Not Placed	23	259	491	637	1,400
Not Available for Placement	2	465	1,321	3,181	4,969
Placement Rate	92%	89%	86%	89%	89%

E. Economic Impact on Ohio

Ohio's 252 registered proprietary schools provided education and training to 62,179 students during FY 2001. Nearly 20,000 students graduated during the period. The schools are a positive, economic asset to the State, both as businesses and as educational institutions for several reasons.

First, proprietary school graduates make a continuing contribution to the economy because of their improved productivity. Graduates of these institutions have higher personal incomes and pay more taxes. Second, proprietary schools are businesses that pay salaries, buy goods and services from other businesses and pay taxes to the local, state and federal government. The well-established model developed by the American Council on Education indicates that, for colleges and universities, every dollar in total operating expenditures generates approximately \$1.20 of local economic activity after taking a "multiplier" of expenditure cycles into account.¹ Using this calculation we can estimate that proprietary schools in Ohio generated more than \$214 million of local economic activity during FY 2001. We can also estimate using these same calculations that Ohio's proprietary schools contributed more than \$14 million as institutions in taxes to support the local, state, and federal government. (This figure excludes income taxes paid by employees on their salaries.)

Finally, using calculations derived from a recent economic study of proprietary schools in California, we can estimate the total additional education costs that Ohio would incur if proprietary schools did not exist and other public and private institutions were forced to absorb the students currently attending proprietary schools. Using the calculations from the California study, we estimate that it would have been necessary for the state to appropriate an additional \$38 million for higher education during FY 2001 to cover the costs of educating students currently attending proprietary schools.

¹ See Hodgins, Robert "Estimating the Impact of a College or University on the Local Economy". American Council on Education, October 1990.

F. School Employees

Another part of the economic impact of our schools and colleges is the employment the schools provide for Ohioans. During FY 2001, proprietary schools provided employment for 4,203 Ohio citizens with total wages of over \$73,000,000.

School employees can be categorized as Administrative, Faculty, Professional, Technical, and Other (general support staff). The following table provides a picture of employees that are employed to operate and teach in the proprietary schools that are registered with the State Board of Proprietary School Registration.

TABLE 8
FY 2001 Employees

Full-Time Employees				Part-Time Employees			
	Male	Female	Total		Male	Female	Total
Admin.	213	272	485	Admin.	45	38	83
Instructional	513	238	751	Instructional	787	668	1,455
Professional	120	263	383	Professional	12	33	45
Technical	73	91	164	Technical	16	70	86
Agent	245	226	471	Agent	5	49	54
Other	65	169	234	Other	62	148	210
Total	1,229	1,259		Total	927	1,006	
Grand Total			2,488	Grand Total			1,933

V. Fiscal Analysis of Board Activities

A. Revenue and Expenditures

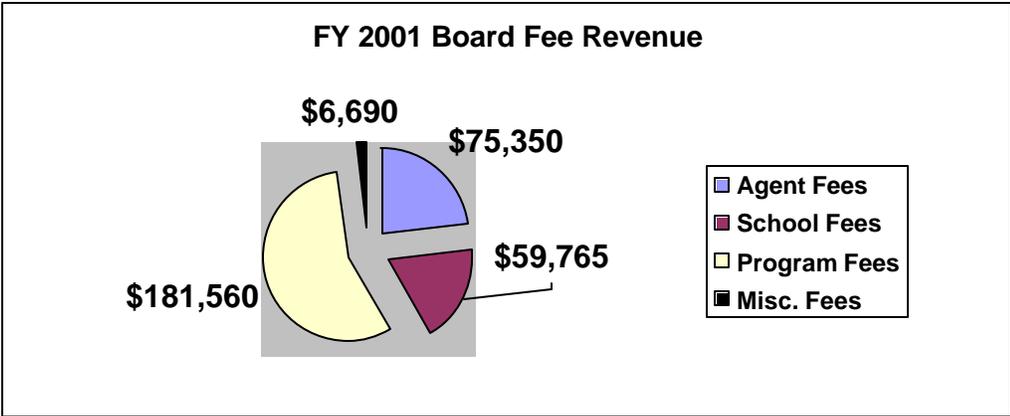

The Board’s revenue is generated from fee schedules adopted and approved by the Board. The following table indicates a five-year comparison of revenue and expenditures by the Board.

TABLE 9

Fiscal Year	1996	1997	1998	1999	2000	2001
Earned Revenue	\$208,180	\$255,441	\$239,566	\$261,399	\$241,083	\$323,365
Expenditures	\$554,184	\$463,813	\$373,763	\$360,220	\$397,383	406,447
State Contribution	\$345,004	\$208,372	\$134,197	\$98,821	\$156,300	\$83,082
General Revenue Funds	63%	45%	36%	27%	39%	21%
Board Revenue	37%	55%	64%	73%	61%	79%

As Table 9 shows, revenue for FY 2001 was higher than the revenue the Board generated during previous fiscal years. This can be attributed mainly to the increase in schools and programs approved by the Board during FY 2001. In addition, expenditures remain lower as a direct result of the Board’s downsizing efforts that reduced the size of the Board’s staff. This increase in revenues and decrease in expenditures also reduced this agency’s reliance on state general revenue funds during FY 1998-2001. The following Chart shows a breakdown of the \$323,365 of revenue generated by the Board during FY 2001:

Chart 2

VI. Division of Investigation and School Compliance

The following report is intended to provide an overview of investigative activity initiated by the Division of Investigation and School Compliance during FY 2001. The report contains statistical data regarding the volume of complaints and an outline of public action taken by the State Board of Proprietary School Registration.

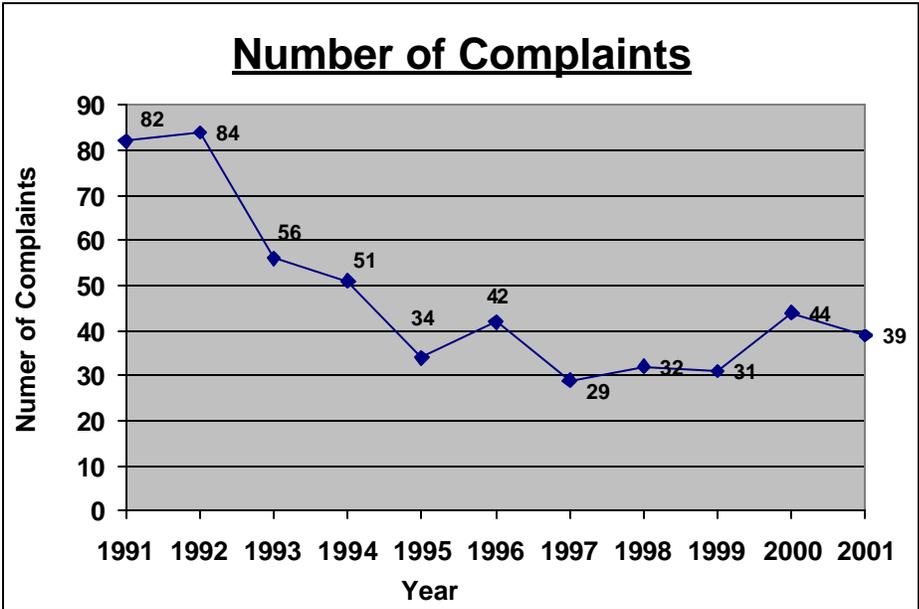

Complaints are broken down as follows:

- 1. **Student Complaints**
- 2. **Non-Registered Schools**
- 3. **Investigative Inquiries**

In addition to these categories, the Division of Investigation and School Compliance, is also responsible for public information requests and assisting in responding to general correspondence and other inquiries received by the Board.

The number of student complaints has dropped significantly since the Board began tracking complaints in FY 1991. That drop is illustrated in the chart below.

Chart 3

A. FY 2001 Statistical Data

During FY 2001, the State Board of Proprietary School Registration, Division of Investigation and School Compliance initiated a total of 106 cases, categorized as follows:

TABLE 10

Fiscal Year	1998	1999	2000	2001
Student Complaints	32	31	44	39
Non-Registered Schools	22	12	13	11
Inquiries	34	59	60	56
Total	88	102	116	106

The number of student complaints dropped slightly in FY 2001 however the nature of the complaints remained fairly constant and the complaints, for the most part, represented isolated problems between individual students and schools. The nature of the student complaints, which were received in FY 2001, can be broken down into the following general headings:

TABLE 11

Allegation	Number of Complaints
Poor quality of education	11
Unethical recruitment or advertising	4
Unfair school administrative policies	9
Failure to provide student services as promised	1
Financial Aid problems	5
Failure to make a proper refund	5
Conflicts with School Personnel	4

The 11 non-registered schools that were reported in FY 2001 can be broken down as follows by programs offered:

TABLE 12

Type of Program	Number of Cases
Medical	3
Computer	6
Other	2

Inquiries, which are preliminary investigations initiated by the Board under the authority of Section 3332.09(D) of the Revised Code, but that are not student complaints, involve the following types of cases:

TABLE 13

Nature of Complaint	Number of Cases
Advertising or recruitment issues	20
Financial Issues	3
Non-Registered Schools	23
Other Issues	10

B. Public Action

During FY 2001 the Board initiated formal disciplinary action against 2 schools. The vast majority of these cases involved a school's failure to timely submit fees and/or other required documentation. Most of the cases were resolved informally by obtaining voluntary compliance from the schools

VII. Student Tuition Recovery Authority

A. *General Responsibility*

The Student Tuition Recovery Authority ("STRA") and the Student Tuition Recovery Fund ("STRF") came into existence in 1991. The purpose of the Authority is to protect students of any school registered by the State Board of Proprietary School Registration from tuition loss for the term, whether due to business failure or any other reason for which the student is not legally responsible.

The STRA disburses monetary awards from the STRF to students who were enrolled in institutions that went out of business and did not return to those students their pre-paid tuition or provide a means of completing their program of instruction up to the amount of their pre-paid tuition.

The STRA consists of five members:

1. The Executive Director of the State Board of Proprietary School Registration;
2. The Executive Director of the Ohio Council of Private Colleges and Schools;
3. The Treasurer of the State or his/her designee;
4. The Chairman of the Senate Committee that primarily deals with education; and
5. The Chairman of the Committee of the House of Representatives that primarily deals with education.

Each registered school is required to pay an annual assessment into the STRF, based on each school's prior year's gross tuition receipts. The State Board of Proprietary School Registration has the responsibility to collect these funds and may pursue any lawful means of assuring that students of any school registered by the State Board do not suffer tuition loss as a result of a business failure or other default of a school. This may include lawsuits against a school or any individual who may reasonably have liability as a result of the default, in which the Attorney General shall advise and represent the Board.

B. *Fiscal Year 2001 Activity*

During FY 2001 the STRA received no student claims. The total balance contained in the fund at the end of FY 2001 was \$1,456,162.

APPENDICES:

1. **Appendix A-1: A listing of all schools and colleges in alpha order.**
2. **Appendix A-2: A geographical listing of all Ohio schools by county.**
